Abstract — This is a sample abstract for the IEEE International Electric Machines and Drives Conference, which will be held in Miami, Florida, May 3-6, 2009. The IEEE International Electric Machines and Drives Conference provides an international forum for sharing experience, new ideas, and developments in design, operation, analysis, and practical application and optimization of electric energy and drive systems and their components. IEMDC is a venue for users, designers and manufacturers, and analysts of electric machines and drives and their related power electronics and controls including all varieties and sizes of electric machinery. Practical applications, operations, maintenance, and the development and harmonizing of international standards related to electric machines and drives are also of interest. The conference is jointly sponsored by the IEEE Power and Energy, Industrial Electronics, Industry Applications, and Power Electronics Societies. The Abstract should be in a single-column pdf format in 12 point serif text, such as Times New Roman. These format requirements are necessary for the peer review stage. Contact information for the corresponding author should be indicated on the abstract only. Abstract should be not more than 200 words.

Request (please select one): Oral Presentation Poster Presentation
